<https://portal.office.com/account/>

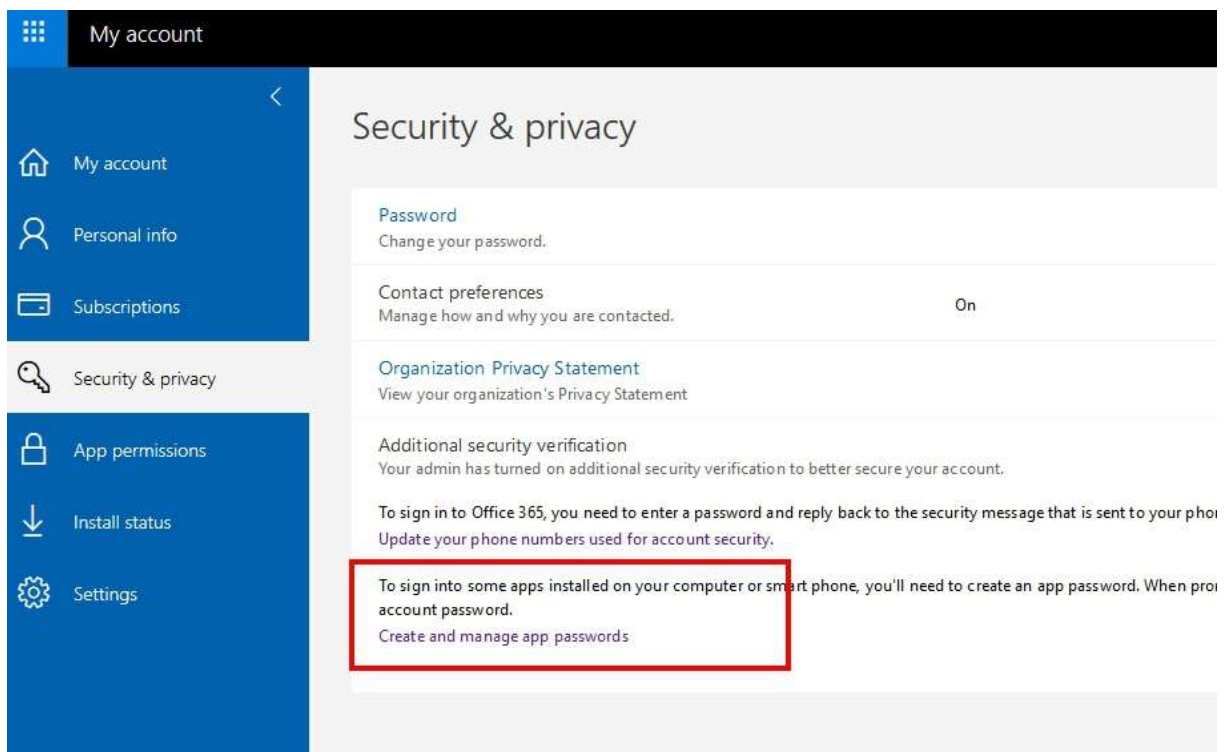

- My Account
- Select Security & Privacy
- Click Manage Security & Privacy

➤ Select Additional Security Verification

➤ Click Create and Manage App Passwords

➤ Click Create

additional security verification app passwords

To sign into Outlook, Lync or other apps installed on your computer or smart phone, you'll need to create an app password. When you use an app password instead of your work or school account password.

You can use the same app password with multiple apps or create a new app password for each app. [How do I get my apps working?](#)

Note: If you are an admin of a Microsoft service, we recommend not using app passwords.
